# RACING FORCE GROUP

## The Group

Racing Force Group is the world's leader in safety equipment for motorsport, with the most advanced and complete range of protection and performance products used worldwide by top professionals, race teams and car manufacturers, as well as amateurs. Racing Force Group contributes to several victories each year through its brands OMP (racewear and car parts), Bell Racing (helmets), Zeronoise (communication systems) and Racing Spirit (technical apparel). The Group's products are used in all disciplines, from Formula 1 to rally, as well as in sports cars, stock car racing, offroad racing and karting. In the last five years, Racing Force Group won more than 50 world championships, along with NASCAR, INDYCAR and Supercars titles. The Group is present on three continents, with main headquarters in Ronco Scrivia (Italy), Sakhir (Kingdom of Bahrain) and Mooresville (United States), and 7 locations in total. In order to gain international visibility and boosting its development plans, Racing Force is now a dual listed company. Since November 2021 is listed on the Euronext Growth Milan market (RFG), and since September 2022 it entered also in the Euronext Growth Paris market (ALRFG). Racing Force Group lies in the breadth of our iconic brand portfolio, our people, our vendors and our customers. The Group's core moral principles and work ethics include values such as integrity, respect, dedication, determination, diversity, sound judgment, dependability, accountability, teamwork, loyalty, quality and safety. We obtain success through a positive mental attitude, optimism, vision, courage, proactiveness and passion: this is our strength.

RACINGFORCEGROUP

# SAFETY & QUALITY FOR FIA

SIDE BY SIDE SINCE 2012

## FIA Motorsport

For over a decade Racing Force Group and FIA have been committed side by side on roads and racetracks to guarantee the protection of the people of racing. This story began in 2012 with the first agreement between OMP and the motorsport's world governing body, and it developed into something even bigger as Bell Racing Helmets became involved as well in the partnership.

## FIA Motorsport

Technical racing clothing for FIA officials and safety car drivers across a range of FIA world championships (from F1 down) comes exclusively from Racing Force Group: OMP fire retardant suits, shoes, gloves and underwear, and Bell helmets.

## FIA Karting Academy

Moreover, since 2017 OMP brand has the honor to supply technical racewear to the young contestants FIA Karting Academy Trophy, the forge of tomorrow's motorsport champions.

**1973**

OMP history begins with a Fiat 500 rollbar. Since then, OMP gets noticed more and more, becoming official car parts supplier for many Italian teams and manufacturers.

**1982**

OMP diversifies its production, entering the racewear market. The company soon supplies its first Formula 1 driver: Mauro Baldi of Arrows team.

**1986**

OMP is the world's first company to obtain the new FIA ISO 86 homologation standards for fireproof racing suits.

**1989**

Gerhard Berger survives the flames of his Ferrari, after the crash during the F1 race at Imola. Credit goes to fireproof overalls and gloves made by OMP. Millions of people see those moments on live TV, and the company becomes popular all over the world.

**1990**

OMP supplies F1 star Ayrton Senna. The partnership will last until the death of the legendary Brazilian driver, with 20 race victories and two world F1 titles scored together.

**1996**

Michael Schumacher kicks off his Ferrari era choosing OMP overalls and gloves. It's the start of a historic collaboration, sharing 71 wins and five F1 world titles.

**1999**

OMP ends in style the 20th century, celebrating the fourth consecutive World Rally Championship title along with the Mitsubishi Ralliart team and Tommi Mäkinen.

**2008**

In February the control of OMP is acquired by SAYE S.P.A. Group, held by Delprato brothers from Genova.

**2010**

OMP returns to Formula 1, signing an agreement with Renault F1 Team to supply its first safety belts designed and built entirely by its R&D department.

**2012**

OMP conquers the US celebrating its maiden IndyCar Series title with Andretti Autosport driver Ryan Hunter-Reay.

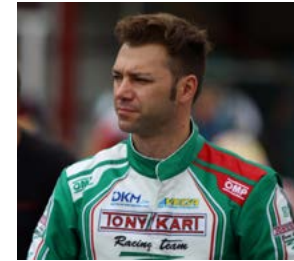

**2013**

Volkswagen Motorsport opens a four-year WRC domination with Sebastien Ogier and OMP. It's the first of many world titles for the HTE seat.

**2013**

OMP provides the drivers' overalls for award-winning "Rush" movie directed by Ron Howard, reproducing in detail the 1976 F1 season look.

**2016**

OMP marks a revolution in the karting sector with the launch of the first ever fully printed suit, the KS1. A new partnership with OTK Group, owner of the Tony Kart brand, also begins.

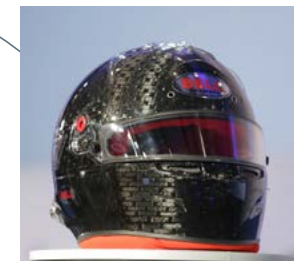

**2017**

OMP presents "One Art", the first totally customized fire retardant suit. The Print Art technology guarantees complete control of the design process.

**2017**

OMP harnesses are chosen by Mercedes AMG Petronas Motorsport Team, which extends its Formula 1 Manufacturers' World Championships streak till the 2021 season.

**2019**

OMP acquires Bell Racing Helmets, giving birth to the biggest worldwide player in motorsport safety equipment.

**2021**

OMP e Bell Racing Helmets convergono nel nuovo Racing Force Group, insieme ai marchi emergenti Zeronoise e Racing Spirit.

**2022**

MotoGP legend Valentino Rossi begins his full-time car racing career, using OMP racewear and Bell helmets through a multi-year partnership.

**2022**

OMP supplies Toyota Gazoo Racing WRT for the third World Rally Championship Manufacturers' title in five years, while Kalle Rovanpera becomes youngest ever WRC champion.

**2023**

OMP becomes official partner of the 24 Hours of Le Mans and the FIA, supplying safety gear for marshals, safety-car drivers, doctors, and all the on-track personnel.

**2023**

Envision Racing wins an historic FIA Formula E Teams' World Championship using the OMP racewear for its drivers.

**2024**

As a new partner of Team Penske, America's most successful racing stable, OMP won the 2024 running of the Indianapolis 500 with Josef Newgarden.

# ZN

ZERONOISE

*Zeronoise features the most advanced communication systems in WRC. With its adaptive sound technology ZN is able to deal with any car, surface and driver's preference. This technology translates into a full product range of intercoms and full integration with Bell and OMP helmets.*

*The integration of ZN with OMP and Bell, delivers top performances thanks to the combined effort of the R&D departments. This approach led to breakthrough innovations such as the one today known as the Driver's Eye, the smallest camera in the world for live TV broadcasting, FIA homologated, that brings the driver's POV to the audience.*

**SYSTEM DIAGRAM OF THE TYPICAL ZN WIRED/WIRELESS ARCHITECTURE FOR ILLUSTRATIVE PURPOSES ONLY**

The Wired-Wireless (WW) System enables communication between driver and co-driver both in Wired and Wireless mode. When the helmet IS connected to the amplifier via cable, the communication works traditionally, also keeping compatibility with any Nexus communication system. When the helmet IS NOT connected to the amplifier via cable, the system switches automatically to the wireless mode with no interruption whatsoever.

**COMPONENTS**

- WW Zeronoise Amplifier
- WW Bell Helmet radio kits / Helmet radio kits produced by other manufacturers
- WW Zeronoise Headsets / Headsets produced by other manufacturers
- Extensions and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)

# FEARLESS WIRED WIRELESS

DIGITAL AMPLIFIER FOR RALLY USE

€ 825,00 (Z)

6100041

125 x 70 x 35 mm

WIRELESS / NEXUS CONNECTOR

FEARLESS WW is the revolutionary Zeronoise amplifier that combines wired and wireless communication using the ZN adaptive noise cancelling algorithm. The system ensures a smooth transition between wired and wireless mode as the intercom automatically switches to the most efficient way to manage the communication between driver and co-driver, inside and outside the car.

The amplifier display shows all relevant information: battery level, connection status, sound settings and more.

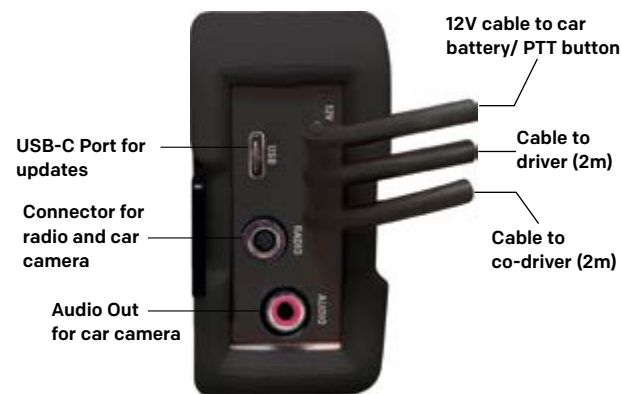

It works wirelessly with selected models of Bell Rally helmets, but it is fully compatible with any helmet in the market that features a standard Nexus connector. The military grade technology on which Fearless Wireless is based, makes sure all communications are encrypted, reliable, and able to work in any environment.

## FEATURES

- WIRED and WIRELESS communication
- Adaptive Noise Cancelling
- Multifunction touch display (It works with gloves)
- Bluetooth
- Anti shock, anti vibration silicon cover
- Software updates through USB-C port
- Audio Out for car camera
- Audio IN/OUT radio connection
- Dual volume adjustment
- 12V Filtered power cable
- Easy fix system on roll bar or dashboard
- Male 4 PIN Nexus

DIGITAL AMPLIFIER FOR RALLY USE

€ 295,00 (Z)

6100038 to 6100040

125 x 70 x 35 mm

NEXUS CONNECTOR

FURY is the new digital amplifier that makes the incomparable quality of Zeronoise adaptive noise cancelling available to all drivers. FURY combines the digital sound quality with the simplicity of use. The four pre-set buttons had been carefully designed to refine the sound in any condition. They both work independently or combined.

TERRAIN: The noise cancelling algorithm focusses on the noises coming from the road surface.

BOOST: It enhances the voice volume output for the most demanding drivers.

ENGINE: This pre-set is effective on the noises coming from the engine.

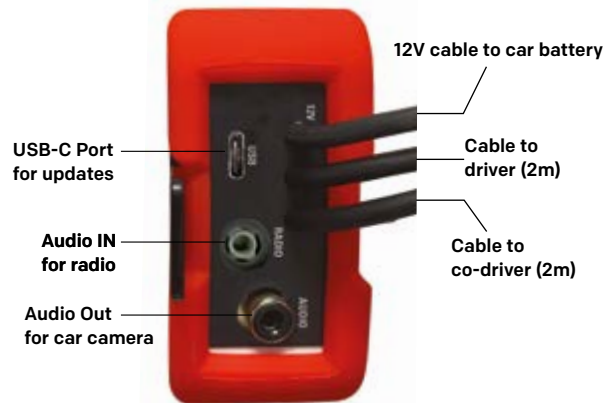

ROAD/STAGE: Stage mode turns off the radio output, so the communication is solely between drive and co-driver for maximum focus.

## FEATURES

- Adaptative noise cancelling
- Anti shock, anti vibration silicon cover
- Software updates through USB-C port
- Audio Out for car camera
- Audio IN/OUT radio connection
- Dual volume adjustment
- 12V Filtered power cable
- Easy fix system on roll bar or dashboard

PIT-LINK TRAINER is the micro amplifier designed to be the perfect communication tool for karting. PIT-LINK TRAINER is a Bluetooth Digital Amplifier that allows to communicate with the pit during a training session. You can wear it around your neck and keep it inside your suit. The digital noise cancelling makes the communication smooth by reducing the noise around the driver.

Communication is automatically on when the phone call is incoming. No need to press anything. The pit crew will connect to the driver through a normal phone call. PIT-LINK TRAINER requires PIT-LINK MICROPHONE KIT and PIT-LINK EARPLUGS to be setup in the helmet.

INTERCOM KIT

€ 88,00 (C)

Microphone kit for single open face helmet. To be used with Valliant control box (see page 105).

PIT-LINK TRAINER is the micro amplifier designed to be the perfect communication tool for karting. PIT-LINK TRAINER is a Bluetooth Digital Amplifier that allows to communicate with the pit during a training session. You can wear it around your neck and keep it inside your suit. The digital noise cancelling makes the communication smooth by reducing the noise around the driver.

Communication is automatically on when the phone call is incoming. No need to press anything. The pit crew will connect to the driver through a normal phone call. PIT-LINK TRAINER requires PIT-LINK MICROPHONE KIT and PIT-LINK EARPLUGS to be setup in the helmet.

# OMP E-RACING COCKPITS

OMP exclusive partnership with Playseat®, the world's leading company in racing simulation cockpits. The new OMP e-racing GTR cockpit stands out for the integration with the HTE-R or Champ-R seats, the same FIA-homologated products developed by OMP for real-world racing. The virtual driving experience becomes even closer to the real thing, by perfectly replicating the ergonomics of GT, Touring and Rally cars.

The sim racers more focused on single-seater cars can opt for the Playseat® Formula model, successfully used by many globally renowned drivers.

All the sim rigs are fully compatible with any console, steering wheel, pedal board and simulation platform on the market.

## GTR COCKPIT

### HTE-R seat ERO-0001

€ 1.105,00 (D)

The OMP e-racing GTR cockpit is built around the renowned OMP seats. These racing seats used in real racing enable to replicate the ergonomics of GT, Touring and Rally cars.

### CHAMP-R seat ERO-0002

€ 900,00 (D)

The OMP e-racing GTR cockpit is built around the renowned OMP seats. These racing seats used in real racing enable to replicate the ergonomics of GT, Touring and Rally cars.

## FORMULA COCKPIT

### ERO-003

€ 983,00 (D)

The OMP e-racing custom Formula seat is ideal for sim racers focused on single-seater cars. It has been successfully tested by many globally renowned drivers and features a dedicated OMP colour scheme.

# MOTORSPORT CARE

The expertise of two historic companies in motorsport and care respectively, mixed together for an exclusive range of products for the cleaning and maintenance of your racing gear: OMP Motorsport Care powered by MaFra.

## MULTIPURPOSE pre-wash degreaser and stain remover

PCO-2005 € 10,20 (P)

## TERM SALE

By placing an order, the buyer accepts and unconditionally agrees with the conditions described in this document, and undertakes to follow them during the course of the business relationship with Racing Force, declaring to have read and accepted them. The buyer also agrees that Racing Force don't consider themselves bound to different conditions, except where agreed in writing in advance. The buyer accepts the terms of sale indicated below. In the event of any legal dispute, the Court of Genoa, Italy, is competent. Racing Force reserves the right to modify the terms of sales anytime, also in view of possible regulatory changes. The new Terms Of Sale will be effective starting from the date of publication on OMP Racing official website ([www.ompracing.com](http://www.ompracing.com)). For any request of clarification or complaint, contact the following email address: [info.rf@racingforce.com](mailto:info.rf@racingforce.com)

**CHARACTERISTICS AND PRICES OF PRODUCTS** The price indicated are VAT excluded. The characteristics and technical data of the items presented in this catalogue are not binding and can be changed without notice. The products' colors can also be considerably altered.

**RETURNED ITEMS - DELIVERY TIME** Racing Force is not responsible for delayed deliveries and will not pay for possible consequent damages. Returned goods will be accepted only when authorized by Racing Force, provided with regular goods return note, and carriage paid. Racing Force will charge all the costs deriving from damages on the returned goods or missing parts. Defective or not functioning items that will be returned after having been purchased will be repaired in the necessary time and will not be substituted by new ones in any way. Orders made in writing (fax, mail, e-mail, etc.) will be considered automatically confirmed and will be forwarded in accordance with the normal procedure. The goods travel at the risk of the consignee, and any damage caused during the carriage will be charged to the consignee.

**CARE AND MANTAINANCE** Before the use of any item, carefully read the labels and the user's manual, and strictly follow the instructions. Improper use or mantainance can reduce the effectiveness of the item, provoke untimely wear and increase the risk of serious or lethal injuries in case of accident or fire. Improper use or mantainance void the guarantee and relieve Racing Force from any responsibility towards the user.

## WARNING

Motorsport is an intrinsically dangerous activity, that can result in serious or lethal injuries. The items described in this catalogue provide for protection on specific parts of the body for a a limited period of time in controlled test conditions, in accordance with the FIA standard specified on each item's label. No device can provide a complete protection from every injury in case of accident or fire. The user, at the time when he uses the products, relieves the manufacturer, the distributor, the owner, the employees, the agents, the sales representatives from any responsibility. It is the user's responsibility to become familiar with all available informations about the correct use and mantainance of the products. If uncertain of the correct use and mantainance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.

- It is the user's responsibility to become familiar with all available informations about the correct use and mantainance of the products. If uncertain of the correct use and mantainance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.

- Every single modification or customization of the products, and every operation on them may reduce their security features. Thus, the user is responsible at his own risk for the reduction of security features caused by modification or customization.

**BY THE USE OF THESE PRODUCTS, THE USER ACKNOWLEDGES:**

That each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization; that personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same; that personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition. That the helmet is conceived and designed to reduce the risk of cranial and facial injuries only in case of impact. That no helmet can protect against any possible and foreseeable impact. That helmets are not recommended and sold for high-risk jobs such as refuelers. Further information at the following web addresses: [www.ompracing.com](http://www.ompracing.com) and [www.ompamerica.com](http://www.ompamerica.com)

**DISCLAIMER**

- Each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization.  
- Personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same.  
- Personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition.  
- Products are sold to be used in legally sanctioned autosport events only, and are not intended to be used and/or installed for regular street use, as street use safety products are subject to different homologations and laws depending on the State or country.
